Rohl with It

Who doesn't love the ever-changing gallery of [kitchen and bath design](#) that is the Merchandise Mart's [LuxeHome](#)? In one place you can check out the latest from Ann

Sacks, Sub-Zero Wolf, Kohler, Waterworks, and a ton of other manufacturers. Well, now there's even more reason to pop in: This month, [Rohl](#), a maker of high-end faucets, sinks, and fixtures, is coming into the Design Resource Center (Suite 163). You'll see Rohl's gorgeous products and also have the opportunity to take part in special events like lunch-and-learns. A word of warning, though: You may experience extreme dissatisfaction with your own faucets and fixtures when you return home.
